PROFESSIONAL SUMMARY

CS graduate with production experience as an AI/ML Engineer and Full-Stack Developer. Skilled in **JavaScript, Node.js, React.js, FastAPI, MongoDB**, and **MySQL** with hands-on work across REST API design, database schema design, and end-to-end deployment. Adept at owning projects end-to-end, communicating directly with clients, and delivering under accountability.

WORK EXPERIENCE

Instance IT Solutions Pvt. Ltd. — BizCompass Softwares

AI/ML Engineer | Campus Placement

Surat, Gujarat

Sep 2025 – May 2026

- Prestige Constructions Chatbot (Live & Deployed):** Designed and built a production-grade real estate chatbot with **FastAPI** REST APIs, governing system prompt behaviour, tool routing, and CRM human-agent handoff logic.
- Database Design & Management:** Designed and maintained **MongoDB** database schemas across multiple collections for session management and data persistence; managed and queried collections using **Studio 3T**. Worked with **SQL (MySQL)** for structured data storage and relational query operations on client data, applying proper indexing and schema design practices.
- AI Voice Agent – Lead Qualification:** Developed outbound call agents via Ultravox to qualify real estate prospects across India; used Gemini API to analyse transcripts, classify leads, and delivered structured reports to clients with full accountability over output quality and turnaround.

Krtya Technologies

Web Developer Intern

Hybrid

Aug 2024 – Feb 2025

- Full-Stack Blog Platform:** Built a production-ready blogging platform using **React.js, Node.js, Tailwind CSS, and Appwrite** with **JWT-based authentication**, role-based access control, and rich-text post creation. Designed the backend service layer, integrated Appwrite's REST APIs, and handled secure session management end-to-end.

Success Innovation Technologies

Junior Web Developer Intern

Hybrid

Jan 2024 – Apr 2024

- GreenBasket – E-Commerce Platform:** Built a full-featured grocery e-commerce platform using **PHP, MySQL, and JavaScript**. Designed the relational **MySQL database schema** covering product catalogue, inventory, cart, order management, and admin reporting. Implemented complex **SQL queries and joins** for order history, stock management, and admin dashboard analytics.

PROJECTS

PsychoMetrix — AI Psychometric Assessment System | *Python, FastAPI, LangGraph, Gemini API, MongoDB, Pydantic*

- Designed and built an adaptive personality assessment platform (OCEAN model) with a **FastAPI** REST API backend, **LangGraph** agent graph for adaptive question flow, and **MongoDB** for all persistence. Authored the complete **database layer** — four collections (sessions, answers, reports, questions) with unique indexes, aggregation pipelines, and paginated queries. Managed connections, CRUD operations, and schema validation via **Pydantic models**.

Full-Stack Blog Platform | *React.js, Node.js, Appwrite, Tailwind CSS, JWT Auth*

- End-to-end blogging platform with **Node.js** backend integration via Appwrite's server SDK. Implemented **JWT authentication**, role-based access control (author vs. reader), rich-text post creation (TinyMCE), and full CRUD operations on posts and user data. REST API layer structured for clear separation of concerns.

AI Mock Interview App | *TypeScript, React.js, Firebase, Vapi SDK, JavaScript*

- Voice-interactive interview platform built in **TypeScript and React.js** with Firebase as the backend. The system dynamically generates interview questions per role, conducts spoken sessions via Vapi's real-time voice SDK, and provides per-question AI feedback. Demonstrates strong **JavaScript/TypeScript** skills alongside real-time backend integration.

ML & Deep Learning Projects | *Python, Scikit-learn, TensorFlow, Streamlit, OpenCV*

- Loan Approval Prediction and Spam Mail Detector (supervised ML); content-based Movie Recommender via cosine similarity; real-time Face Mask Detector (CNN + OpenCV); LSTM Sentiment Analyzer on IMDB dataset; Leaf Species Classifier trained on a 5,000-image augmented dataset with rotation, flip, and zoom augmentation.

EDUCATION

Uka Tarsadia University (UTU)

B.Tech in Computer Science and Engineering | CGPA: 8.27 | SGPA: 9.00

Bardoli, Surat

2022 – 2026

Shree Swaminarayan International Gunatit Vidhyadham

HSC (2022): 85.20% | SSC (2020): 92.20%

Navsari, Surat

2019 – 2022

SKILLS, ACHIEVEMENTS & LINKS

Technical Skills	Achievements	Links
Languages: JavaScript (ES6+), TypeScript, Python, PHP, SQL Frontend: React.js, Tailwind CSS, HTML5, CSS3 Backend: Node.js, FastAPI, Django, REST APIs Databases: MySQL, MongoDB, Oracle SQL (learning) AI/ML: LangChain, LangGraph, Gemini API, TensorFlow, Scikit-learn, NumPy, Pandas Tools: Git, Firebase, Appwrite, Studio 3T, Postman, Ultravox, JWT Auth Soft Skills: Client Communication, Ownership, Accountability	Silver Medal — English Olympiad, Class 12 Runner-up — UTU Tech Fest Coding Round	GitHub: Priangshu-18 LinkedIn: priangshu18 LeetCode: Priangshu_18 Twitter/X: Priangshu_18 Portfolio: My Website
